

ALKIN W31

HIGH PRESSURE COMPRESSORS

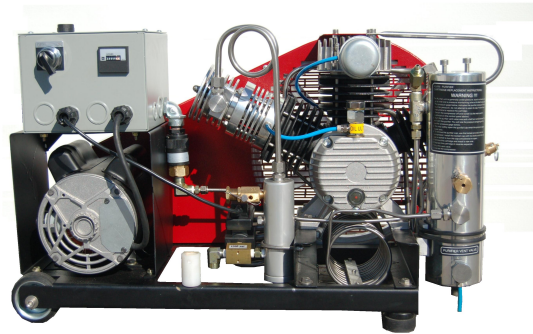

BUILT FOR LIFE

Alkin W31 series high pressure compressors are designed to meet the demand for a durable high quality air compressor at an affordable price. Available with either a single phase electric motor or a reliable Honda engine, the W31 is used worldwide by dive centers, fire departments, the military, valve service centers and paintball fields.

BUY · LEASE · RENT

- Reciprocating air compressors
- Rotary air compressors
- Medium and high-pressure air compressors
- Engine starting air compressor packages
- Instrument air compressor packages
- Vapor recovery units
- Electric motor driven rotary screw gas compressors
- Breathing air compressor packages
- Specialty gas compressors
- Blowers
- Vacuum pumps
- Air dryers
- Air operated machinery
- Accessories

APPLICATIONS

- SCUBA/SCBA Breathing Air
- Paint Ball Fields
- High Pressure Valve Testing

STANDARD FEATURES

- Free air delivery 3.5 CFM at 4500PSIG
- Dry air intake filter
- Stainless steel valves
- Available with 3 HP 220/1/60 electric motor or a reliable HONDA 5.5 HP gasoline engine with recoil start
- V-belt drive with belt guard
- Oil level sight glass
- Light weight base plate with motor slide base
- On/off push button and hour meter on electric motor driven units
- Stainless steel inter and after-coolers, c/w manual drain valves
- Inter-stage safety relief valve
- Discharge safety relief valve
- Oil filled discharge pressure gauge
- 10,500 CF stainless steel purification tower with triplex chemical cartridge including:
 - Activated carbon (oil vapor removal)
 - Molecular sieve (drying)
 - Hopcalite (carbon monoxide removal)
- Full twelve (12) month replacement parts warranty
- Detailed operating and parts manual

Alkin Model	Pressure	FAD CFM	MOTOR HP	# OF STAGES	WEIGHT (LBS)	DIMENSIONS (L x W x H)
W31-2-310-P2	4500 PSI	3.5	3 Electric	3	127	30.3 x 13.4 x 17.7
W31-4P-310-P2	4500 PSI	3.5	5.5 Gas	3	138	33.4 x 13.4 x 17.7
